Education

Pontifical Catholic University of São Paulo (PUC-SP) — São Paulo, Brazil
Bachelor of Science in Computer Science — *Feb. 2022 – Dec. 2026*

Experience

Junior Full Stack Engineer — Feb. 2025 – Present
Lumen Labs — *São Paulo, Brazil*

- Ship features end to end for a B2B scheduling platform used by 1,200 clinics, from **PostgreSQL** migrations and **Node.js** APIs to **React** interfaces
- Cut the main dashboard's median load time from 3.8 s to 1.1 s with cursor pagination, **Redis** caching and lazy-loaded charts
- Built the **Stripe** billing integration (subscriptions, webhooks, idempotent retries), processing over R$ 2M per month
- Mentor two interns on testing; raised backend test coverage from 41% to 78%

Software Engineering Intern — Jul. 2024 – Jan. 2025
Trilha — *São Paulo, Brazil (Hybrid)*

- Built the course progress API in **TypeScript** and **NestJS** for 30,000 students, with role-based access
- Rewrote the quiz editor in React with drag-and-drop and autosave, cutting content errors by 35%
- Set up **GitHub Actions** pipelines with linting, tests and preview deployments

Frontend Developer Intern — Jan. 2024 – Jun. 2024
Quintal Logística — *São Paulo, Brazil*

- Developed a real-time delivery tracking map with **Next.js** and WebSockets covering 400 daily routes
- Turned Figma designs into a library of 40+ accessible React components shared across three apps

Projects

Bandejão PUC | *Next.js, Supabase, PostgreSQL, PWA* — 2024 – Present

- Progressive web app with the PUC-SP cafeteria menu and live queue estimates, used by 2,000 students a month
- Scraped and normalized weekly menus with a scheduled Python job; modeled allergens and ratings in PostgreSQL

Rota Segura | *React Native, FastAPI, PostGIS* — 2nd place, HackPUC 2023

- Led a team of four to build, in 36 hours, an app that suggests well-lit walking routes from open city data

pix-kit | *TypeScript, open source* — 2023

- npm library that generates and validates Pix payment QR codes, with full test coverage and 300+ GitHub stars

Technical Skills

Languages: TypeScript, JavaScript, Python, SQL, HTML/CSS
Frameworks: React, Next.js, NestJS, FastAPI, TailwindCSS, React Native
Developer Tools: Git, Docker, GitHub Actions, AWS (ECS, S3, RDS), Vercel, Figma
Data: PostgreSQL, Redis, Prisma, Supabase
