Experience

Lumen Labs — São Paulo, Brazil
Junior Full Stack Engineer — February 2025 – Present

- Ship features end to end for a B2B scheduling platform used by 1,200 clinics, from PostgreSQL migrations and Node.js APIs to React interfaces.
- Cut the main dashboard's median load time from 3.8 s to 1.1 s with cursor pagination, Redis caching and lazy-loaded charts.
- Built the Stripe billing integration (subscriptions, webhooks, idempotent retries), now processing over R$ 2M per month with zero double charges.
- Review pull requests and mentor two interns on testing; raised backend test coverage from 41% to 78%.

Trilha — São Paulo, Brazil (Hybrid)
Software Engineering Intern — July 2024 – January 2025

- Built the course progress API in TypeScript and NestJS for 30,000 students, with role-based access for teachers and admins.
- Rewrote the quiz editor in React with drag-and-drop and autosave, cutting teacher-reported content errors by 35%.
- Set up GitHub Actions pipelines with linting, tests and preview deployments for every pull request.

Quintal Logística — São Paulo, Brazil
Frontend Developer Intern — January 2024 – June 2024

- Developed a real-time delivery tracking map with Next.js and WebSockets covering 400 daily routes.
- Turned Figma designs into a library of 40+ accessible React components shared across three internal apps.

Projects

Bandejão PUC • Next.js, Supabase, PostgreSQL, PWA

- Built a progressive web app that publishes the PUC-SP cafeteria menu and live queue estimates, used by about 2,000 students each month.
- Scraped and normalized weekly menus with a scheduled Python job and modeled allergens and ratings in PostgreSQL.

pix-kit • TypeScript, open source

- Published an npm library that generates and validates Pix payment QR codes, with full test coverage and 300+ GitHub stars.

Rota Segura • React Native, FastAPI, PostGIS • 2nd place, HackPUC 2023

- Led a team of four to build in 36 hours a mobile app that suggests well-lit walking routes around campus using open city lighting data.
- Wrote the routing API in FastAPI with PostGIS spatial queries and pitched the product to a panel of engineers and investors.

Education

B.S. in Computer Science – Pontifical Catholic University of São Paulo (PUC-SP) — 2022 – 2026 (Expected)

- **Relevant Activities:** Member, PUC Tech League; Teaching Assistant, Data Structures (2023); Organizer, PUC-SP Academic Week (2024).

Certifications

AWS Certified Cloud Practitioner – Amazon Web Services — 2025
Meta Front-End Developer Professional Certificate – Coursera — 2023

Technical Skills

Spoken Languages: Portuguese (Native), English (Fluent, C1).
Languages: TypeScript, JavaScript, Python, SQL, HTML/CSS.
Frontend: React, Next.js, TailwindCSS, React Query, Playwright.
Backend: Node.js, NestJS, FastAPI, REST, GraphQL, WebSockets.
Data & Cloud: PostgreSQL, Redis, Prisma, Docker, AWS (ECS, S3, RDS), Vercel.
Tools: Git/GitHub, GitHub Actions, Figma, Agile (Scrum).
